RethinkEd Account Guide:
Adding & Reviewing Student Data

1. Select & Add Student Goals

- Navigate to the *Lesson Library*
- Toggle to the *Skills Library* right under the RethinkEd logo
- Use the filter tools and search bar on the left to enter key words about the student goal
- Sort through the options until you find one that is a good match
- Click the Action Ellipses "…" on the far right, and click *Assign*
- From the pop-up box select the student/s who are working on this goal

2. Customizing & Individualizing the Goal to the Student

- Navigate to the *Student Tab*
- Search for the student, and click the orange *Learning Plans* box on the bottom left of their student square
- On the left under Lessons, scroll to find the goal you want to individualize and click on it
- On the right pane, next to *Goals, Objectives, & Data*, click *Edit*
    - In *Goals*, modify the language to match the goal language
    - In *Data,* select the method that matches the goal language
    - Ensure the *Mastery Criteria* matches the goal
    - If you have benchmarks or short-term goals add them as *Targets*
    - Click *Save*

3. Collecting & Imputing Student Data

- Navigate to the *Student* Tab
- Search for the student, and click the red button on the top left of their student square
- In the dropdown, click *Data Express*
- On the left toggle on or off the goals you'd like to enter data for by clicking on them - if the goal is showing up as dark green on the left pane it's been selected
- On the right, click the *Calendar* icon and enter the date for the data you want to enter
- Scroll down to find the goal you want to enter data for
- Select the teaching target/s you have data for and click *Continue*
- Enter *plus and minus* for the target to match your data sheet or real-time collection
- Click *Save*

4. Viewing Student Data & Progress

- Navigate to the *Student* Tab
- Search for the student, and click the red button on the top left of their student square
- In the dropdown, click *Data Express*
- On the left toggle on or off the goals you'd like to view data for by clicking on them – if the goal is showing up as dark green on the left pane it's been selected
- On the right scroll to the goal you'd like to see data for and click the *Data* button to the right of the goal title
- Select *Print* in the top right of the pop up window to print the goal and chart
- Scroll down and click additional drop downs to see specific information on individual data points and targets
